

June 5, 2009

Mr. Mark Chadwick
Contracting Officer
NASA Shared Service Center
National Aeronautics and Space Administration
B-1111, 2nd Floor, Room 292S
Stennis Space Center, MS 39529-6000

SUBJECT: CSC Response to OCI Information Request Letter Dated June 2, 2009

Dear Mark,

Please consider this letter as CSC's response to the Government's request for details of the steps taken to implement firewall efforts inclusive of the Team Subcontractors. The firewall efforts are discussed at every subcontractor telecon meeting (schedules attached) covering the following details:

- e-mail correspondence with each subcontractor reinforcing OCI requirements
- OCI refresher training course participation by subcontractor employees
- CSC corporate firewall restrictions on local NSSC employees and CSC corporate support
- firewall agreements of the team subcontract individuals working on the Tier 0/1 ESD/ESRS request for proposal
- Lockheed Martin's updated OCI Mitigation Plan Addendum
- departing employee form reminder of signed Covenant Against Disclosure, and
- signed NDA with Lockheed Martin in the event CSC utilizes LM ODIN information beneficial to the transition of the ESD/ESRS.

The attachment contains all the detailed records of these actions.

In addition to the steps above, CSC Corporate issued an e-mail on May 6, 2009 from the President of NPS Civil and Health Services Group delegating full commitment authority on CO# 28 ESD/ESRS change to Dave White, SP NSSC VP, Program Manager, and disassociating all other non-NSSC CSC employees from the change proposal. This change order proposal will not be sent to CSC Headquarters for review unlike the normal CSC proposal review process. Also the proposal and modification, when received, will not be placed on the CSC Contracts "S" drive or Contracts Database, respectively, until after the award of all the I3P contracts is complete.

The information in the attachment is considered "CSC proprietary information" and therefore may not be released outside the Government, nor posted on the NASA I3P acquisition websites.

If you have any questions or need additional information, please contact me at your earliest convenience at 228-813-6343.

Sincerely,

CSC
